APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion, manner and place of use of the waters of an underground source as heretofore granted under Permit 14560, Certificate 4302, is issued subject to the terms and conditions imposed in said Permit 14560, Certificate 4302, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.20 cubic feet per second, but not to exceed 14.0 million gallons annually.

Actual construction work shall begin on or before May 20, 1973

Proof of commencement of work shall be filed before June 20, 1973

Work must be prosecuted with reasonable diligence and be completed on or before May 20, 1974

Proof of completion of work shall be filed before June 20, 1974

Application of water to beneficial use shall be made on or before May 20, 1976

Proof of the application of water to beneficial use shall be filed on or before June 20, 1976

Map in support of proof of beneficial use shall be filed on or before June 20, 1976

Commencement of work filed MAY 1 1973

Completion of work filed JUL 3 1975
